Toshiba offers a wide range of Notebooks that are designed specifically for business and professional use. They range from world-leading ultra-portables to big screen desktop replacements. Many include business-specific features that you won't find on many consumer models. And all have reliability built in. Need help? See the explanations on the other side.

PROTECT, CONNECT, SECURE AND OPTIMISE YOUR NEW NOTEBOOK

Toshiba EasyGuard™ built-in technologies help make our Notebooks even better

Every Toshiba Notebook has reliability built in, from design right through to construction. That's what provides us with our industry-leading levels of reliability. In addition, each model in our business range features a selection of EasyGuard™ technologies: protect, connect, secure and optimise.

MAKING A GREENER NOTEBOOK

As one of the world's largest and most innovative manufacturers, we take a global approach to environmentally sound product design. We're convinced that environmental considerations need to be built into every Toshiba product and process, from design and development through to manufacturing, usage and recycling.

SCREEN SIZE

10.1"	Toshiba's new mini Notebook features a 10.1" screen for convenience in everyday tasks.
11.1"	The 11.1" is a great option if you want more space to work in.
12.1"	An ultra compact widescreen for the ultra-mobile professional looking for full functionality.
13.3"	A very compact widescreen. Ideal for frequent flyers who value portability above screen size.
14.1"	A compact widescreen that still gives you plenty of room to work in.
15.6"	A standard size widescreen Notebook that gives you a large viewing area. Ideal for most everyday business uses.
17"	A large widescreen that's ideal if you want a big workspace for spreadsheets, graphics, multi-page documents and so on.

PORTABILITY

<2kg	Incredibly small, slim and light. Perfect for frequent flyers.
2kg	Compact and yet powerful, functional and light.
3kg	Easy to carry around without sacrificing screen size.
4kg	Ideal for when you just want to take your Notebook from office to home and back.

STORAGE

5400	Features a standard speed hard disk drive.
7200	Features a high speed hard disk drive.
	Features a solid state disk drive (SSD).
	Shows on-board RAM available as standard (upgrade available).
	Shows on-board RAM available as standard (upgrade available).

CONNECTIVITY

Port Replicator Docking	Features docking capability so that you can connect or disconnect to the network in seconds.
dynadock™ Docking	Features Toshiba dynadock™ capability. Plug printers, network, monitor and more into dynadock™ and then connect your notebook to everything with a single cable.
USB sleep & charge	Allows you to charge devices such as your mobile even when the Notebook is switched off.
Firewire	This port lets you transfer data at a very high rate - it is often found on video cameras.
PCI Express card	A port that lets you plug in devices like TV receivers, 3G phone cards and more.
Media card	A port that accepts many of the common memory card formats - Secure Digital® (SD), Memory Stick™, Memory Stick PRO™, Multi Media Card, xD Picture Card, Mini SD (with SD adaptor).
Bluetooth	A short-range wireless communication system that lets you easily connect to phones and other Bluetooth capable devices.
e-SATA	A port used to move large amounts of data fast. Generally used to connect an external hard drive.
PCMCIA	Makes your Notebook even more flexible by letting you plug in network cards, extra memory, 3G mobile broadband and more.
Mini Display-Port	Connect external screens via this advanced video connector for sharper pictures and type, even brightness and improved colour matching.

GRAPHICS

	When all you need is business functionality.
	Enhanced graphics capabilities for architects, engineers and other intensive graphics users.
	Additional dedicated graphics memory provides a performance boost.
	Features video conferencing capability.

MANAGEABILITY

	Features Intel's Active Management Technology. This lets administrators remotely heal systems, perform diagnoses and re-boots and keep software and virus protection up-to-date. It's easy to integrate AMT equipped Notebooks into your fleet.
	Features a business card reader that makes it easy to capture contact information.
	Offers a convenient way of logging in with face recognition technology.
	The Toshiba PC Health Monitor proactively monitors power consumption, battery health and system cooling and keeps you informed about the Notebook's status.

NETWORKING

	Enables network speeds of up to 100MB/sec.
	Enables network speeds of up to 1GB/sec.
	Suitable for most network requirements. Enables wireless connections at up to 54 Mb/sec.
	Enhanced connectivity for streaming HD music and video. Enables wireless connections at up to 450 Mb/sec.
	Features 3G connectivity. This gives you broadband internet access from most major population centres in Australia.

INPUT

	Features a Touchpad for fingertip control.
	Features a separate numeric keypad.
	Allows input via a stylus and active digitiser.

CPU

	Netbooks powered by the Intel® Atom™ processor are an ideal mobile companion to your primary PC.
	Get entry-level computing with the Intel® Celeron® processor.
	Intel® Core™ 2 Duo. For proven processor performance and fundamental security and manageability you can count on.
	Intel® Core™ i3 Processor. New generation performance with Intel® Hyper-Threading Technology.
	Intel® Core™ i5 Processor. Adaptive performance with Intel® Turbo Boost Technology and increased responsiveness.
	Intel® Core™ i7 vPro™ Processor. Smart, hardware-assisted security and manageability features with the intelligent performance of Intel® Turbo Boost Technology helps businesses increase efficiency and lower costs.

BUILT-IN 3G MOBILE BROADBAND

3G mobile broadband connectivity gives you any-time, anywhere access, extensive coverage, fast upload and downloads. BATTERY LIFE

9.0h	Shows expected battery life in hours. (depending on application usage)
------	--

OPERATING SYSTEM

	Windows® 7 Professional is designed for business people who have a life. It has all the entertainment features of Windows 7 Home Premium as well as business features that let you connect to networks and manage devices more easily, provide faster access to everything, and help you find what you're looking for. Do more. Wait less.
	Windows® 7 Starter means less waiting, less clicking and less hassle connecting to networks, printers and devices. It combines the latest in reliability and responsiveness with the familiarity and compatibility of Windows to help get the most out of the latest mini-PCs.
	Genuine Windows Vista® Business is based on the operating system that preceded Windows® 7. It is designed specifically to meet business needs.

ENVIRONMENTAL SPECIFICATIONS

	Power Saving Eco Utility Software helps you minimise power consumption.
ROHS Compliant	Toshiba notebooks fully comply with the European Union's Restriction on Hazardous Substances (ROHS) directive.
	Toshiba Notebooks that display the ENERGY STAR® symbol are among the most energy-efficient on the market. They use 25 to 50% less energy without compromising quality or performance. For more details please refer to www.energystar.gov

Toshiba (Australia) Pty. Limited ABN 19 001 320 421 The Notebook series in this matrix come in a range of models featuring different levels of specifications. Max. spec is shown in the matrix. The product you have selected may not have all the features and specifications corresponding to all of the icons or switches shown in the illustration or in store display. For further details and specifications, you are recommended to visit Toshiba's website www.mytoshiba.com.au or phone Toshiba on 13 30 70 (Australia) 0800 441 615 (New Zealand). Toshiba Notebooks are subject to technology limitations and are subject to change without notice. It is important that you understand Toshiba's policy for Central Processing Unit (CPU) performance, non-conforming screen pixels, gigabyte measurement, VRAM capacity, battery life variance, operating system and other specific technologies. #Particular products are 3G enabled for specific service providers (Telstra and Optus in Australia; Telecom NZ in New Zealand). Please confirm the specific service provider with your reseller/retailer. Available storage capacity will also be less if the product includes one or more pre-installed operating systems, such as Microsoft Operating System and/or pre-installed software applications, or media content. Actual formatted capacity may vary. CD/DVD write capability may vary depending on the type/brand of media utilised. Thickness may vary at certain points on the system. Warranty terms and conditions apply, see www.mytoshiba.com.au or your Toshiba Reseller for details. EasyGuard spill resistant keyboard concept will help safeguard the notebook from certain small volume accidental spills and allow users several minutes to close any open files and turn off the machine. EasyGuard shock protection system provides your notebook with a higher impact protection and reliability to your key hardware components. Certain Microsoft® software product(s) included may use technological measures for copy protection. In such event, you will not be able to use the product if you do not fully comply with the product activation procedures. Product activation procedures and Microsoft's privacy policy will be detailed during initial launch of the product, or upon certain re-installations of the software product(s) or reconfigurations of the computer, and may be completed by Internet or telephone (toll charges may apply). Because of the dynamic nature of this industry, versions, product details and availability are subject to change on a continual basis without prior notice. You are recommended to visit Toshiba's website www.mytoshiba.com.au or phone Toshiba on 13 30 70 (Australia) 0800 441 615 (New Zealand) to confirm product specifications, capability, and functionality before purchasing your unit.
